

IN THE NEXT ISSUE

The next issue of *Cancer Control* will focus on pancreatic cancer. Among the authors and topics are:

"Endoscopic Ultrasound in the Clinical Staging and Management of Pancreatic Cancer: Its Impact on Cost of Treatment," by Mark E. Powis, MD, of the University of Colorado Health Sciences Center, Denver, Colorado, and Kenneth J. Chang, MD, of the University of California, Irvine Medical Center, Orange, California

"Update on Molecular Prognostic Markers in Pancreatic Cancer," by Domenico Coppola, MD, of the H. Lee Moffitt Cancer Center & Research Institute at the University of South Florida, Tampa, Florida

"Treatment of Resectable and Locally Advanced Pancreatic Cancer," by Boris W. Kuvshinoff, MD, and Mark P. Bryer, MD, of the University of Missouri Ellis Fischel Cancer Center, Columbia, Missouri

"New Directions in Systemic Therapy of Pancreatic Cancer," by Alexander S. Rosemurgy, MD, and Francesco M. Serafini, MD, of the Center for Digestive Disorders at the University of South Florida, Tampa, Florida

"Mucinous Tumors of the Exocrine Pancreas," by Mohamad A. Eloubeidi, MD, MHS, and Robert H. Hawes, MD, of the University of Alabama, Birmingham, Alabama

"Endoscopic Palliation for Inoperable Pancreatic Cancer," by Ananya Das, MD, and Michael V. Sivak, Jr, MD, of Case Western Reserve University, Cleveland, Ohio

The regular departments in *Cancer Control* will feature Clinical Research Protocols on Pancreatic Cancer, Imaging in Oncology, Clinical Reasoning in Oncology, and Ten Best Readings on Pancreatic Cancer. Look for your issue in September 2000.

Cancer Control is accessible on the World Wide Web at <http://www.moffitt.usf.edu/ccjournal>. The CME questions also can be answered online.
