

IN THE NEXT ISSUE

The next issue of *Cancer Control* will focus on breast cancer. Among the topics and authors are:

“Breast Cancer Sentinel Node Metastases: Histopathologic Detection and Clinical Significance,” by David W. Ollila, MD, and Karyn B. Stitzenberg, MD, of the University of North Carolina at Chapel Hill

“Magnetic Resonance Imaging of the Breast,” by Christopher P. Goscin, Claudia Berman, MD, and Robert A. Clark, MD, of the H. Lee Moffitt Cancer Center & Research Institute

“Management of Breast Cancer in the Older Woman,” by Lodovico Balducci, MD, and Martine Extermann, MD, of the H. Lee Moffitt Cancer Center & Research Institute, and Ignazio Carreca, MD, of the Cattedra di Oncologia Medica Università degli Studi, Palermo, Italy

“Postmastectomy Breast Reconstruction: Current Techniques,” by Alan R. Shons, MD, PhD, and Gerard Mosiello, MD, DDS, of the H. Lee Moffitt Cancer Center & Research Institute

“The Effect of Sentinel Node Selective Axillary Lymphadenectomy on the Incidence of Postmastectomy Pain Syndrome,” by Rafael Miguel, MD, Ann M. Kuhn, MD, Alan Shons, MD, PhD, Patricia Dyches, RN, Mark D. Ebert, BS, Eric S. Peltz, BS, Keoni Nguyen, BS, and Charles E. Cox, MD, of the H. Lee Moffitt Cancer Center & Research Institute

“Sexual Functioning in Breast Cancer Survivors,” by Christina Thors, PhD, and Paul Jacobsen, PhD, of the H. Lee Moffitt Cancer Center & Research Institute, and JoAnn Broekel, PhD, of the Pacific Lutheran University

The departments in *Cancer Control* will feature Clinical Research Protocols on Breast Cancer, Pathology Update, and Ten Best Readings on Breast Cancer. Look for your issue in September 2001.

Cancer Control is accessible on the World Wide Web at <http://www.moffitt.usf.edu/ccjournal>. The CME questions also can be answered online.
